# SCIENCE BEHIND ENJOYLLERY™

When developing ENJOYLLERY™ we set out to perfect two important issues:

- 1. The right combination of ingredients
- 2. The right delivery system

- 1. The right combination: every product in ENJOYLLERY™ collection is designed with a very high percentage of premium active ingredients. These carefully engineered ensembles allow maximum benefits to be derived from each ingredient.
- 2. The right delivery system: our chemists and R&D team designed a unique patented delivery system - BETOXYNOL-4™. This delivery system intensifies the effects of other ingredients in formulations, allowing faster, immediate, as well as long lasting results.

BETOXYNOL-4™ is powered by 4 powerful natural oils extracted from Lemon, Orange, Curcumin, and organic Inca Inchi. Apart from being extremely beneficial to skin and hair, these oils were chosen because they have high content of proteins and omega 3, 6, & 9 - essential elements for beautiful skin and hair

BETOXYNOL-4™ oxygen delivery system captures essential vitamins along with the potent Omega 3-6-9, transporting these beneficial elements to the skin and hair, for a healthy and vital appearance

The complex provides deep hydration, nourishment, protection, and repair

# GLOWING SKIN RE:FRESH

# IF YOU WISH TO ESTABLISH AN EFFECTIVE SKINCARE ROUTINE MAKE SURE TO CLEAN YOUR SKIN

once in the morning before you put on makeup & once at night before you go to bed. First, wash your hands so you won't be transferring bacteria to your face. Wet your skin with warm water to open up your pores.

Use clean cotton pads to apply milk cleanser and toner. Never leave any cleanser on your face, as this encourages irritation, spots and imperfections.

You can finish off by rinsing your skin with cold water to close up the pores and prevent dirt getting back into them, and therefore preventing blemishes. It will also leave your skin looking refreshed.

### Let's get down to basics...

**Keratin** is a protein naturally found in the hair – it is responsible for hair's elasticity and strength, as well as for keeping the hair healthy. Various factors affect the amount of keratin in the hair – age, environmental pollution, heat styling damage, etc. As the amount of keratin decreases, the hair is left looking and feeling dry, lifeless, and fragile.

- Keratin adds shine to the hair, keeps it soft and smooth, while controlling the frizz and increasing manageability
- Keratin helps moisturize the hair, repairing damage caused by outside factors, making the hair more supple and healthier looking
- Keratin helps the hair regain its natural structure

Enjoyllery™

The key to a flawless, glowing complexion begins with the right skin care regimen.

FTV Cosmetics ENJOYLLERY™ Skin Care products will transform dry, tired, cracked or oily facial skin into even-toned, radiant complexion and will help enhance your natural beauty.

After you determine your skin type (normal, oily, dry, or combination) and skin concerns (aging, pigmentation, uneven skin tone, etc...), you can choose the best suitable products for your skin's specific needs.

As a general rule, you should follow 4 basic steps in your skin care regimen:

Always begin with your favorite FTV cleansing soap to refresh, energize and clear your skin

**clean**

Follow with FTV Freshwater Pearls Toner to balance pH and remove hard minerals from water

**tone**

Then apply one of our serums to nourish - first eye serum, then facial serum to repair, replenish and promote anti-aging

**nourish**

Moisturize and protect your skin with one of our moisturizing creams

**hydrate**

Allow your skin to absorb all these goodies for a few minutes.

This easy-to-do skin prepping routine makes the skin look and feel hydrated and fresh and takes no more than 3 minutes from start to finish, allowing your makeup, applied afterwards, to look absolutely perfect.

# Prepare The Skin for Makeup

A good preparation is half the work. FTV skin care products are the must-haves to prepare your skin for the perfect foundation application.

Top Models' Secrets to Finding Your Perfect Color Match

**TEST THE SHADE** on your jawline or cheek. The correct shade should literally disappear into the skin and blend with the skin tone

**FROM SHADE TO LIGHT...** When trying a new shade, it's best to test in a natural light. Also be sure to allow a few minutes for the foundation to adapt to your skin before making a decision about the color

**THE SECRET IS THE UNDERTONE** It truly doesn't matter if you are light or dark! You should be focusing on your undertone. You have either natural, cool or warm undertones. {Check FTV Perfect Selfie Liquid Foundation undertone/color match guide lines}

**TWO IS ♥NE...** It's advisable to have two different shades of foundation: one for the summer and one for the winter because your skin tone can change with seasons. In between seasons, you can mix and match

**BE YOURSELF!** Foundation should always be used to even out your actual skin tone, pick a shade as close as possible to your natural skin tone and blend seamlessly from face to neck. Remember, you are creating a canvas for the rest of your makeup to shine

YOU FIND

# TOP MODELS' BASIC "How to look perfect" MAKEUP ROUTINE

My secret to making pores appear smaller is to finish cleansing with a splash of cold water and apply my Perfect Selfie Liquid Foundation in circular motions (both clockwise and counter-clockwise). It works like a charm and provides me with natural full coverage.

The best way to apply the Liquid Concealer is to create a triangular with the base of the triangle directly under your lashline and the point toward the bottom of your cheek.
